INTRODUCTION

I am a highly skilled **Mobile Engineer** specializing in **React Native** with a strong background in building responsive, high-performance mobile and web applications. My core expertise revolves around developing modern mobile experiences, optimizing app performance, and delivering smooth, intuitive user interfaces across both iOS and Android.

In addition to React Native, I am also proficient in **React.js**, **Vue.js**, and **Flutter**, enabling me to work effectively on cross-platform solutions and front-end focused projects.

While mobile development is my primary strength, I have practical experience with **Node.js**, **NestJS**, and **PHP Laravel**, allowing me to contribute to full-stack workflows when required.

I thrive in collaborative environments—working closely with designers, backend developers, and product teams to translate ideas into polished, production-ready applications. Passionate about clean architecture, scalable code, and continuous improvement, I stay updated with the latest technologies and best practices to deliver highly maintainable and visually engaging products.

OBJECTIVE

Seeking a Mobile Enginner position to further develop my skills in creating responsive, user-focused web interfaces. In the short term, I aim to strengthen my expertise in modern front-end technologies, and in the long term, I aspire to grow into a Full-Stack Developer capable of contributing to innovative, high-impact projects.

WORK EXPERIENCE

HD Tech

2021 - 2022

FRONTEND DEVELOPER

Over one year of experience as a Front-End Developer at an outsource company, contributing to 4-5 projects across various industries. Responsibilities included developing responsive and user-friendly web applications using HTML, CSS, JavaScript, and modern frameworks. Collaborated with designers, backend developers, and clients to implement features according to project requirements. Focused on writing clean, efficient code, optimizing application performance, and ensuring cross-browser compatibility. Actively participated in code reviews and team meetings to improve overall project quality.

Freelancer

2022 - 2023

FRONTEND DEVELOPER

Experienced in directly communicating with clients to understand their needs, adjusting project requirements, and delivering tailored, responsive web solutions. Skilled in managing client expectations and ensuring timely, high-quality results through clear, proactive communication.

Haroct Technologies

2023 - Now

Mobile Engineer (Front-end Leader)

Overseeing the front-end mobile development for the Haroct application with a focus on delivering stable, scalable, and high-quality product releases. Responsible for developing new features, maintaining existing modules, fixing critical bugs, and optimizing overall app performance. Actively managing the full release cycle, including preparing builds for testing and production, monitoring deployments, and resolving post-release issues. Collaborate closely with designers, backend engineers, and product managers to translate business requirements into seamless user experiences. Lead front-end decisions for UI/UX improvements, code structure, and best practices to ensure maintainability and long-term scalability of the app. Continuously enhance app performance, improve code reliability, and

maintain consistent delivery velocity through efficient task management and proactive communication.

PROJECTS

Social web

2023 - now

FRONT-END DEVELOPER

Name of customer :: HD Tech

Team size :: 2

Responsible for maintaining a social platform built with Vue.js for frontend and NestJS for backend, ensuring smooth operation of features like posts, likes, comments, and package-based privileges.:

Vue.js, NESTjs, MY SQL

Maintain app

Multishop Ecommerce

10-2023 - 3-2023

Develop App, manage fe side

Budget Tracker Mobile App

3-2024 - 3-2024

PM

Name of customer :: Freelance job

Team size :: 3

Developed a mobile budget tracking app with React Native for the frontend and Node.js backend, providing real-time financial tracking and insights:

React Native & Node.js , MONGO DB

Develop App, Project manager.

Social Mobile App

1-2024 - now

FRONT-END MOBILE DEVELOPER

Name of customer :: HD Tech

Team size :: 10

Designed a social mobile app with livestream and call features using Flutter for cross-platform frontend and Java backend for real-time communication services.:

Flutter & Java

Develop App, manage fe side

Collaborator Web App

6-2024 - 7-2024

Front-end Developer

Name of customer :: VNGIC

Team size :: 3

Created a collaborator app using Vue.js for frontend and NestJS for backend, enabling sales reps to push student profiles and earn commissions based on role.:

Vue.js & NestJS , My SQL

Develop App, manage fe side

Single Shop E-commerce

6-2024 - 7-2024

PM

Name of customer :: Freelance job

Team size :: 2

Created a fully functional single-shop e-commerce site with an admin dashboard using PHP Laravel, enabling seamless product management, transactions, and order tracking.:

PHP Laravel, My SQL

FE dev, PM

Haroc Mobile Application

Mobile Engineer (React Native)

2023 - Present

Team size: 5+

- Developed and maintained core features for the Haroct mobile app using **React Native**, focusing on performance, stability, and seamless user experience across iOS and Android.
- Implemented new functionalities, optimized existing modules, and fixed critical bugs to ensure high-quality releases.
- Handled end-to-end **mobile deployment**, including build preparation, signing, TestFlight uploads, Play Store releases, and managing staging/production environments.
- Collaborated closely with backend, QA, and product teams to deliver features efficiently and improve overall app reliability.
- Involved in code reviews, UI/UX improvements, and continuous refactoring to maintain clean and scalable architecture.

Tech stack: React Native, TypeScript, Redux, REST APIs

SKILLS

Expert in React Native for building high-quality, cross-platform mobile applications with smooth performance and modern UI/UX. Experienced in architecting scalable app structures, state management, and real-time features such as livestreaming and calling.

Strong experience in **mobile app deployment**, including preparing builds, signing, publishing, and releasing updates on **Google Play Console**, **Apple App Store**, TestFlight, and internal testing environments.

Proficient in developing responsive user interfaces using **React.js**, **Vue.js**, and **Flutter**.

Experience using **Next.js** for server-side rendering and optimizing frontend performance.

Skilled in maintaining and improving existing mobile applications (React Native & Flutter), optimizing performance, reducing crashes, and ensuring smooth user experience across devices.

Proficient with **Git**, **GitHub**, **GitLab** for version control and collaboration.

Experience with deployment and hosting processes using **Render**, **Heroku**, and **Firebase**.

Able to use **AI tools effectively** to improve productivity and problem-solving.

English: Proficient
